You can wait until the school start to purchase a new calculator if you wish to order through the school.

KOGNITY – ELECTRONIC TEXTBOOKS

In several subject students will use Kognity electronic textbooks (<https://kognity.com/>). This resource is more than a textbook; it will provide us with a good opportunity to facilitate interactive learning as well as the follow up of the student's progress. The teachers can easily gain information about the student's achievement and generate tailored evaluation tasks. In addition, students can use Kognity in autonomy or in peers. On Kognity, curriculum contents are updated regularly.

The school will order and advance the payment for Kognity individual subscriptions and send yearly invoices to each family. Student Access to all IB Kognity Textbooks is **€110** student per school year for the duration of Diploma Programme attendance. The invoices sent to families can be expected both years in December/January and will be in NOK (based on the currency conversion rate on the date when the invoice is issued).
