N.B. Students **must** have a registered address in Oslo municipality throughout the time they attend the school.

PLEASE READ CAREFULLY:

Subject group	Subjects	Comments
Language A MYP language and literature courses include a balanced study of genres and literary texts, including a world literature component.	English Lang. and Lit. <input type="checkbox"/> Norwegian Lang. and Lit.	All students will be required to take a combination of English and Norwegian. Most students will study English and Norwegian at a Language A level.
Language B The aims of MYP language acquisition are to encourage and enable students to: <ul style="list-style-type: none"> • gain proficiency in an additional language while supporting maintenance of their mother tongue and cultural heritage • develop a respect for, and understanding of, diverse linguistic and cultural heritages • develop the communication skills necessary for further language learning, and for study, work and leisure in a range of contexts • develop multi-literacy skills through the use of a range of learning tools 	<input type="checkbox"/> Norwegian ----- French	Students who are at beginner or intermediate level in Norwegian will study Norwegian B. The school offers classes in French at beginner, intermediate and advanced level. All students are expected to take French at one of these levels. Note that the school only offers French as a foreign language.
Individuals and Societies The study of individuals and societies helps students to appreciate critically the diversity of human culture, attitudes and beliefs. Courses in this subject group are important for helping students to recognize that both content and methodology can be debatable and controversial, and for practising the tolerance of uncertainty.		All students will study the same units in Individuals and Societies
Science The MYP sciences group aims to encourage and enable students to: <ul style="list-style-type: none"> • understand and appreciate science and its implications • consider science as a human endeavour with benefits and limitations • cultivate analytical, inquiring and flexible minds that pose questions, solve problems, construct explanations and judge arguments • develop skills to design and perform investigations, evaluate evidence and reach conclusions 	Integrated Science	All students will study the same units in Science (biology, physics and chemistry)

Mathematics Mathematics in the MYP is tailored to the needs of students, seeking to intrigue and motivate them to want to learn its principles. Students should see authentic examples of how mathematics is useful and relevant to their lives and be encouraged to apply it to new situations.	<input type="checkbox"/> Mathematics <input type="checkbox"/> Extended Mathematics	Standard Mathematics aims to provide a sound knowledge of basic mathematical principles. Extended mathematics supplements the standard curriculum with additional topics and skills, providing greater breadth and depth of study.
Physical and health education Students engaged in physical and health education will explore a variety of concepts that help foster an awareness of physical development and health perspectives, as well as positive social interaction.	Physical and health education	All students will participate in the same units in PHE. The subject focuses on physical activity and integrates this with knowledge and reflection.
The arts Arts in the MYP stimulate young imaginations, challenge perceptions, and develop creative and analytical skills. The course encourages students to understand the context and cultural histories of artworks, supporting the development of an inquiring and empathetic worldview. Arts challenge and enrich personal identity and build awareness of the aesthetic in a real-world context.	Visual arts	All students will study the same units in Visual Arts.
